INSTALLATION INSTRUCTIONS

Tools & Materials Needed

Ceiling Medallion Installation Instructions
Screw Gun / 2" Sheet Rock Screws
Adhesive / Caulking Gun
Tape Measure / Pencil
Caulking (paintable latex)
Utility Knife

Preparing Your Workspace

- 1 - Remove clutter from the floor space to insure a safe working environment
- 2 - Make sure all work and mounting surfaces are clean and dry before installation
- 3 - Follow manufacturer's instructions when using tools and materials

Before Installation

- 1 - Read all of these instructions before getting started
- 2 - If the medallion is to have a ceiling fan, chandelier or light below it, make sure the power is shut off at the breaker. Turning off the light switch WILL NOT prevent you from being shocked. If you have any doubts call a professional electrician. Check with a local electrician to insure your fixture conforms to local codes and regulations.
- 3 - Medallions cannot support the weight of a fan or light fixture. Likewise the fan or light fixture should not be used to support the medallion.

Medallion Weights

Style	Size	Weight
BRRD-8	31.5" Diameter	10 lbs
BRRD-9	36" Diameter	12 lbs
BR-1010	39" x 39"	16 lbs
BRR-11	43" Diameter	15 lbs
BR-1212	47" x 47"	23 lbs
BR-1216	47" x 63"	30 lbs
BR-1218	47" x 71"	34 lbs
BRR-13	51" Diameter	21 lbs
BRC-1324	51" x 94"	45 lbs
BRD-1324	51" x 94"	47 lbs
BR-1515	59" x 59"	34 lbs
BRRD-16	63" Diameter	30 lbs
BRH-1622	63" x 87"	50 lbs
BRRB-1722	67" x 87"	40 lbs
BRRD-18	71" Diameter	38 lbs
BRRD-20	79" Diameter	47 lbs
BRRD-21	83" Diameter	52 lbs
BR-1824	71" x 95"	60 lbs
BRD-1926	75" x 102"	70 lbs

Adhesive

Adhesive should be applied liberally to the backside of the medallion where it touches the ceiling. Sheet rock screws will secure the medallion while the adhesive sets. You can use any adhesive that is rated for use with wood (check the back of the label) -- we have found great success using Liquid Nails, which works very well and is available at most home improvement stores.

Aligning The Medallion

Using your center point or fixture as a reference, lightly mark the ceiling with pencil where the perimeter of the medallion will be. Check that the medallion will be aligned with the walls when installed.

Installation

- 1 - Make sure the power is switched off at the breaker before touching any wires. Turning off the light switch WILL NOT keep you from being shocked.
- 2 - Consult your fixtures instructions. You may need to purchase additional hardware to make your fixture compatible with the offset of the medallion
- 3 - Make sure you have enough people to help you maneuver the medallion into place and then hold it while the sheet rock screws are sunk.
- 4 - Apply adhesive liberally to the backside of the medallion where it touches the ceiling.
- 5 - Feed the electrical wires or support through the center of the medallion.
- 6 - Press the medallion against the ceiling. Use 2" sheet rock screws to secure the medallion to the ceiling.
- 7 - Clean up any adhesive with mineral spirits and a cloth.
- 8 - Cover screws with supplied caps or touch up screw heads with the gold paint provided.

We are not responsible nor do we hold any liability for installation problems or damages arising from installation. These instructions are provided as a general guide and should never supersede local building codes. The consumer assumes all responsibility to adhere to local building codes and practice responsible construction methods when modifying any structural elements.
